

## da Vinci mini w+

3D printing made easy

The da Vinci mini w+ is an entry-level desktop 3D printer designed for the home. Connect it to your home wifi network and print household items or toys with your children from anywhere in your wireless network.

## Lightweight and Transportable

Weighing less than 8 kg, the da Vinci mini w+ is light enough to easily move around your house.

## Small Size, Big Print Volume

With a 150 x 150 x 150 mm aluminum print bed, print bigger and higher quality objects on a smaller printer.

## Perfect Prints First Time

Our print materials are quality checked and pre-tested so that when you print a model using our 3D software XYZmaker, all the print settings have been calculated for you. Simply load your model and press print to get great results every time.

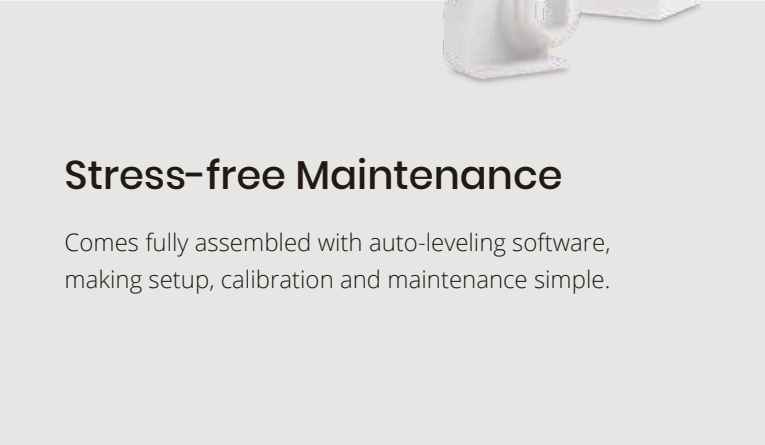

## Stress-free Maintenance

Comes fully assembled with auto-leveling software, making setup, calibration and maintenance simple.

## Safe for the Home

Meeting UL、CE、FCC、VCCI、RCM standards, and using biocompostable and DEHP-free PLA print material, this printer has been built with safety in mind.

## Wireless Printing

The da Vinci mini w+ can connect wirelessly to your wireless network for easy 3D printing throughout your home, office, or classroom. Use XYZmaker Suite or XYZmaker 3Dkit, our in-house 3D design software and app, to connect to your network, prepare the files and print wirelessly.
