

# INTERACTIVE CHILDREN'S DISPLAY

Designed to encourage children's interest and learning in the classroom, the interactive children's touch screen is an innovative and stimulating resource for young children.

*Children will learn by playing*

*"It transforms the teaching-learning process into something playful for them. In addition, you can work on a lot of skills and abilities through play."*

Eva Usán, Early Childhood Education Teacher

Available in 2 colours

With this tool, children's creativity will flow freely thanks to unlimited access to a variety of educational games and apps through Google Play. In addition, they will develop their first digital skills through technology.
